Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claims 18 and 20 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 18 and 20 fail to further limit the scope of the additive in parent claim 17.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 17, 18, 20, 21, 23 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over DE 4404219.

DE '219 teaches a water based clay composition which comprises a phosphonate according to the present invention (see succinic acid derivative IIa on page 2), and may contain salts such as sodium silicate or sodium metaphosphate which is the same as the shale swelling inhibition agent of the present invention (see page 3, lines 16-19, and examples). The composition may be used as a drilling mud (page 2, lines 5-8). The clay is a viscosifying agent. DE '219 differs from the present invention in that a weighting agent is not specifically disclosed. The use of a weighting agent in

Art Unit: 1712

drilling fluids is universally known, and their use in the invention of DE '219 would be obvious to one of ordinary skill in the art, over the teaching of the composition of DE '219 as a drilling fluid.

4. Claims 9-12, 15, 16, 26-28, 30 and 31 are allowable over the art of record.

5. Applicants amendment has been considered but is not deemed fully persuasive. Applicants amendment distinguishes over the 35 USC 102 rejection, since a specific weighting agent is not disclosed by DE. However, it would be obvious as noted above to add a weighting agent to a drilling mud, as is almost universally done. Applicant did not respond to the objection to claims 18 and 20, which objection is maintained in the present action.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
